Outstanding Education!

NAU MAI, HAERE MAI – WELCOME TO ICL GRADUATE BUSINESS SCHOOL

Welcome to ICL Graduate Business School, where you will receive a high-quality education in a supportive and motivating learning environment.

Our students come with clear goals—whether to advance academically through internationally recognised qualifications and pathways to Master’s study, or to build their careers and gain work experience in New Zealand.

A Graduate Diploma, Postgraduate Diploma, or Master’s degree from ICL will equip you with the skills, knowledge, and confidence to achieve your ambitions.

We understand that studying in a new country can be both exciting and challenging. Our academic and pastoral support teams are here to help you settle in quickly and succeed throughout your journey.

We look forward to welcoming you and supporting you in achieving your goals.

Ewen Mackenzie-Bowie
Chairman

‘PRAESENS PRAECELLO’

Through determination I excel

OUR VISION

An excellent environment to realise everyone’s full potential.

OUR MISSION

To help learners achieve their educational goals and develop learner autonomy by providing high-quality educational programmes within a motivating, guided and healthy learning environment.

OUR VALUES

- Quality
- Integrity
- Collegiality
- Versatility
- Sustainability

WHY STUDY ABROAD?

New Zealand is a perfect destination for international students to study, live in and have fun. New Zealand has a high standard of living, amazing landscapes, clean air, a healthy lifestyle and quality food and accommodation.

5th

Auckland: Mercer Quality of Living City World Ranking 2024

Living & Professional Development

During your time in New Zealand, you can gain the skills and experience you need to succeed anywhere in the world. The practical, hands-on learning style gives you a head start in the workforce or a solid foundation for further academic pursuit.

In addition, you can take in the stunning beauty of this country. New Zealand is considered one of the most beautiful countries globally, with breathtaking views of the ocean, lakes, mountains and volcanoes. It's a paradise for outdoor enthusiasts.

Auckland, our largest city, boasts one of the highest quality of living rankings globally, based on climate, ease of communication, and political and social environment, among others. International students have access to a wide range of employment opportunities. Thanks to population growth, investment, and trade, New Zealand's economy is one of the strongest in developed countries.

3rd

Most Peaceful Country in the World, Global Peace Index 2025

Safety & Personal Development

Studying overseas is a major decision, and we know that safety is a top priority. New Zealand boasts a secure, politically stable society that takes pride in its hospitality and cultural diversity. It has been recognised as one of the most peaceful and least corrupt countries in the world.

Studying in New Zealand presents an opportunity for personal growth and development. It provides students with an immersive and supportive environment to acquire skills necessary for working in a globalised society, such as critical thinking, communication, and teamwork. Furthermore, students will enhance their English proficiency both in and out of the classroom.

It can be challenging to determine which institutes are quality-assured in an unfamiliar country with a different education system. However, in New Zealand, this is not a concern.

18th

UN Human Development Index World Education Ranking

High Education Quality

New Zealand consistently ranks among the world's most developed countries. According to the United Nations Human Development Index (HDI 2025, based on 2023 data), New Zealand is ranked 18th globally, placing it in the category of Very High Human Development.

The New Zealand government has strong quality assurance systems to ensure high-quality education at all levels, both public and private.

Private Training Enterprises (PTE) like ICL Graduate Business School must follow strict quality guidelines monitored by the **New Zealand Qualifications Authority (NZQA)**, which under their previous External Evaluation and Review (EER) in 2022 achieved Category 1. Also ICL Education Group is a member of **Quality Tertiary Institutions (QTI)**.

WHAT MAKES ICL A GREAT PLACE TO LEARN?

ICL Graduate Business School offers practical courses for all levels of study, right through to Master's degrees. You can create your own pathway to reach your goals.

Quality Education

ICL in its most recent External Evaluation and Review (EER) outcome in 2022 achieved Category 1 under the previous EER system. NZQA has advised that it is "Highly Confident in ICL's educational performance" and "self-assessment capability" following the latest external evaluation and review, published in September 2022.

ICL keeps a close eye on what employers and prospective students are looking for in Business qualifications. We do regular market research to ensure our programmes are relevant and that they provide graduates with the right knowledge and experiences.

Close Support

Our students learn and develop their skills in small classes where group communication is emphasised. Classes are complemented by online learning: students can study anywhere using our Learning Management System, Canvas.

Further Opportunity

Our Postgraduate Diploma in Business has been recognised by both AUT and Massey universities as a pathway to Master's degrees. Our Graduate Diplomas are also recognised for entry to Master's degrees in New Zealand. Furthermore, our New Zealand Diplomas of Business and Diploma of Information Systems have recognised pathways into undergraduate degrees in either AUT or Massey University or even both.

Employability

Programmes at ICL not only teach theoretical knowledge but also share first-hand experiences from the real world. This real-world perspective may be gained from field trips, visiting industry speakers, and practicums. All our Level 7 to Level 9 programmes qualify international students to work up to 20 hours per week. Successful completion of these programmes also qualifies graduates for 1 to 3 years post-study work visas which allows them to seek long-term employment or even settle down in New Zealand.

Facilities

- Free Wi-Fi
- Student kitchen and lounge facilities
- Library books
- Access to ProQuest online e-books and journals, and Canvas Learning Management System
- Computer station available
- ICL has a BYOD policy

Students are welcome to use school facilities from
8 AM to 8 PM - Monday to Friday
8 AM to 5:30 PM - Saturday & Sunday

BYOD - Bring Your Own Device Policy

All students in ICL programmes are required to bring their own electronic device (e.g. laptop, tablet).

LIVING AND WORKING IN NEW ZEALAND

ICL Graduate Business School provides Accommodation and Welfare support to assist students with accommodation. Students under 18 years of age must stay with an ICL-approved homestay or a family member.

Homestay

When you are away from home, living with a host family homestay is an excellent way to learn about New Zealand culture, make friends and practice your English. New Zealand families are kind and friendly, and they enjoy meeting people from other cultures.

Student Residency

Residency accommodation can be arranged on request. ICL has partnered with safe, high-quality student residences in the city centre.

Flatting

If you prefer to rent an apartment or to find a flatmate, you can find advertisements for flats to rent and roommates on specialised websites and social media.

Living and Working

Living costs can vary depending on your lifestyle. Many services and goods offer student discounts.

Many students would like to work during their studies. As an international student, you can work up to 20 hours per week during the academic year and work full-time during the holidays.

You will need an IRD number if you wish to work in New Zealand. Your IRD number is used for all your taxes, entitlements and personal details that Inland Revenue holds.

It is essential that you work lawfully and sign an employment contract with your employer to protect your own rights.

For more information regarding living costs and work rights, please refer to the links below:

www.newzealandnow.govt.nz/living-innz/money-tax/comparable-living-costs

www.immigration.govt.nz

Choosing the right accommodation will impact your New Zealand experience and your time at ICL. You can contact accommodation@icl.ac.nz for more information.

SERVICES

Your well-being is our priority. Our First Language support staff, speaking over 10 languages, are available to assist you with any concerns—whether related to your studies or life outside ICL.

Student Services and Pastoral Care

ICL Graduate Business School offers all students personal and emotional support from our dedicated pastoral care coordinator, and from an external qualified counsellor when necessary.

- Personal support (adaptation to local environment and culture, help for everyday life concerns).
- Career Services (assistance with interview skills, job hunting, assistance with CV preparation, cover letters and the New Zealand work environment).
- Attendance monitoring and meeting with students.
- Airport pick up with Homestay accommodation.

All services are available in different languages if the student is not confident or comfortable in English.

Student Welfare

We have safeguards to protect International students' welfare. We have policies and procedures for students at risk and with special needs. We work with the following external organisations and community networks to ensure you a safe and pleasant study experience at ICL.

- Lifeline Auckland (Suicide Prevention)
- Epilepsy NZ
- ADHD Association Inc
- Mental Health Foundation NZ
- Hearts & Minds Mental Health Service
- Asian Family Services
- Chinese Lifeline
- Latin American Association
- Problem Gambling Foundation of NZ

Learning Advice

The School has a dedicated learning advisor to provide comprehensive services to assist students in achieving academic success.

The Learning Advisor:

- Provides academic advisory services to students and lecturers to improve learning outcomes.
- Delivers tutorials to students throughout the year to improve academic literacy, referencing skills and study skills.
- Provide one-on-one support to students.
- Works with administrative staff and lecturers to ensure that students at risk attend support sessions.
- Contributes to the development and implementation of action plans to provide support to students, particularly those at risk.

Four 16-week trimesters

180

Credits

Eight 15-credit papers and a 60-credit
applied project

6.5

Academic IELTS Requirement

No band lower than 6.0 or any other
equivalent in a test recognised by NZQA

Programme Overview

The Master of Management builds on previous undergraduate studies in business/management or related disciplines. You will be equipped to become a practitioner in your specialist field. The Master of Management programme weaves together curriculum threads of leadership and management in both culturally specific and globally relevant contexts, frameworks for understanding and tools for leading organisations changing, and how to apply knowledge of research to real business situations.

A specific focus of the programme is developing a bicultural dimension in Aotearoa through an understanding of Māori business and leadership models.

Entry Requirements

- An original bachelor's degree or Graduate Diploma in a business-related subject from a recognised institution, including full transcripts,
- or evidence of acquiring the relevant skills and knowledge through appropriate work or professional experience in business studies or a related area.
- Undergraduate degree in a different discipline with relevant skills and knowledge through professional experience.
- For International students, Academic IELTS with a minimum score of 6.5 overall (with no band score lower than 6.0 and gained within the past two years in one examination), or any other equivalent in a test recognised by NZQA.
- A personal statement explaining why you want to study the programme is strongly recommended.

The study programme aims to enable students to critically examine theories and practices of management and to conduct applied research so they develop high-level skills and knowledge for leading, managing and transforming organisations within an environment of ubiquitous and continuous change.

Papers

LEVEL 8		
8230	Organisational Behaviour, Leadership and Change	15
8281	Business Professionalism	15
8260	Business Transformation	15
8271	Māori Business Leadership Models	15
8542	Research Methods	15
LEVEL 9		
9201	Global Business Management	15
9230	Contemporary Leadership and Management	15
9203	Project Management	15
9537	Applied Project	60

Graduate Outcomes

- Evaluate and apply advanced contemporary management theories to emerging situations in an organisation.
- Create an internal organisation culture with strong employee engagement, collaboration and teamwork, and ongoing learning and development in the changing environment.
- Analyse, synthesise and communicate information, plans, policies and strategies to enhance business outcomes in an organisation.
- Apply leadership and management to improve business performance within an organisation in Aotearoa New Zealand or internationally.

Employment Outcomes

Graduates develop transferable skills applicable across industries globally, enhanced by cross-cultural competence and an understanding of Māori approaches to business leadership—preparing them to contribute effectively within Aotearoa New Zealand's export-oriented economy.

- Business Development Manager
- Project Manager
- Human Resources Manager
- Logistics Manager
- Retail Manager
- Management Consultant
- Risk Management
- Supply Chain Management
- Operations Management
- Management Analyst

MASTER OF MANAGEMENT BY THESIS

MM-T — LEVEL 9

Critically examine management theories and practices while developing the skills to design and complete a substantial research thesis. The MM by Thesis is a one-year programme that may grant international students full-time work rights and offer a pathway to doctoral studies in Management.

12

Months Programme

Three 16-week trimesters

120

Credits

Two 15-credit papers and a 90-credit thesis

6.5

Academic IELTS Requirement

No band lower than 6.0 or any other equivalent in a test recognised by NZQA

Programme Overview

The Master of Management by Thesis builds on prior postgraduate studies at Level 8 in business or related fields. It is also suitable for those with a Level 8 qualification in any field, provided they have at least 3 years of relevant managerial and practical experience. This programme emphasises mastery of theoretical concepts in management, making it ideal for learners who intend to pursue doctoral studies or an academic career. Successful graduates will be well-prepared to enter doctorate programmes in New Zealand and internationally. Students will learn to identify problems or challenges within a specialised field — whether in management, business, commerce, business information, or enterprise innovation — and develop a research project that addresses gaps in the existing literature.

Entry Requirements

- A Postgraduate Diploma, Master's degree or other NZQF Level 8 qualification in a business-related subject from a recognised institution, including full transcripts;
- Or a Postgraduate Diploma, Master's degree or other NZQF Level 8 qualification in any subject from a recognised institution, including full transcripts, combined with a minimum of 3 years of relevant managerial and practical experience.
- For International students, Academic IELTS with a minimum score of 6.5 overall (with no band score lower than 6.0 and gained within the past two years in one examination), or any other equivalent in a test recognised by NZQA.
- A personal statement explaining why you want to study the programme is strongly recommended.

Graduate Outcomes

- Demonstrate mastery in a specific field, linking analysis and findings to relevant theories.
- Evaluate and apply advanced contemporary management theories to emerging situations in an organisation.
- Create an internal organisation culture with strong employee engagement, collaboration and teamwork, and ongoing learning and development in the changing environment.
- Analyse, synthesise and communicate information, plans, policies and strategies to enhance business outcomes in an organisation.
- Apply leadership and management to improve business performance within an organisation in Aotearoa New Zealand or internationally.

Eight 15-credit papers and a 60-credit
applied project

6.5

Academic IELTS Requirement

No band lower than 6.0 or any other
equivalent in a test recognised by NZQA

Programme Overview

The Master of Management with specialisation in Healthcare programme builds upon prior undergraduate studies in business or related fields, or relevant work experience, to cultivate the next generation of managers and leaders in the healthcare industry. Its curriculum aligns with the **Australasian College of Health Service Management (ACHSM) Competency Framework**, guaranteeing the acquisition of relevant and highly sought-after skills in this rapidly expanding industry. The **ACHSM** is a key professional organisation dedicated to excellence in health service management across Australasia. Their framework emphasises leadership, communication, strategic thinking, and ethical governance, shaping standards in Australia and New Zealand. This study programme integrates traditional management and leadership theories with specialised knowledge and skills in healthcare management, addressing both culturally specific and globally relevant contexts.

Entry Requirements

- An original bachelor's degree or Graduate Diploma in a business-related subject from a recognised institution, including full transcripts,
- or evidence of acquiring the relevant skills and knowledge through appropriate work or professional experience in business studies or a related area.
- Undergraduate degree in a different discipline with relevant skills and knowledge through professional experience.
- For International students, Academic IELTS with a minimum score of 6.5 overall (with no band score lower than 6.0 and gained within the past two years in one examination), or any other equivalent in a test recognised by NZQA.
- A personal statement explaining why you want to study the programme is strongly recommended.

Graduate Outcomes

- Evaluate and apply advanced contemporary management theories to emerging situations in an organisation.
- Create an internal organisation culture with strong employee engagement, collaboration and teamwork, and ongoing learning and development in the changing environment.
- Analyse, synthesise and communicate information, plans, policies and strategies to enhance business outcomes in healthcare-related organisations.
- Apply leadership and management to improve business performance within an organisation in Aotearoa New Zealand or internationally.

MASTER OF MANAGEMENT

WITH SPECIALISATION IN

MARKETING

MM-MKT – LEVEL 9

Become a marketing leader in the digital age. The Master of Management (Marketing) develops expertise in strategy, analytics, consumer behaviour, and AI-powered marketing tools to help you design impactful campaigns and drive growth in global organisations.

12

Months Programme
Three 16-week trimesters

180

Credits
Eight 15-credit papers and a 60-credit applied project

6.5

Academic IELTS Requirement
No band lower than 6.0 or any other equivalent in a test recognised by NZQA

Programme Overview

The Master of Management (Marketing) develops advanced expertise in marketing strategy and analytics, enabling students to critically examine contemporary management theories and apply data-driven insights to organisational challenges. Building on prior study in business or related fields, the programme integrates core leadership and management principles with specialised marketing capabilities, including marketing analytics, consumer behaviour, and AI-enabled tools. Students learn to evaluate complex market environments and design, implement, and optimise strategic marketing initiatives across diverse contexts. Emphasising culturally responsive and globally relevant approaches, the programme prepares graduates to engage effectively with dynamic markets and varied audiences.

Through applied research and practical frameworks, graduates gain the ability to translate data into actionable insights, enhance decision-making, and drive innovation. They are equipped to become skilled practitioners and strategic leaders in marketing.

Entry Requirements

- An original bachelor's degree or Graduate Diploma in a business-related subject from a recognised institution, including full transcripts,
- or evidence of acquiring the relevant skills and knowledge through appropriate work or professional experience in business studies or a related area.
- Undergraduate degree in a different discipline with relevant skills and knowledge through professional experience.
- For International students, Academic IELTS with a minimum score of 6.5 overall (with no band score lower than 6.0 and gained within the past two years in one examination), or any other equivalent in a test recognised by NZQA.
- A personal statement explaining why you want to study the programme is strongly recommended.

Employment Outcomes

- Marketing Manager
- Digital Marketing Manager
- Brand Manager
- Marketing Analyst / Data Analyst
- Customer Insights Analyst
- Product Marketing Manager
- Social Media Strategist
- Content Marketing Manager
- Marketing Automation Specialist
- Market Research Analyst
- Advertising and Campaign Manager
- Growth Marketing Manager
- CRM Manager

- Critically assess dynamic market environments and develop adaptive, culturally responsive marketing approaches for diverse and global audiences.

MASTER OF MANAGEMENT WITH SPECIALISATION IN CONSTRUCTION PROJECT MANAGEMENT MM-CPM – LEVEL 9

Build your future in construction leadership. The Master of Management (Construction Project Management) develops advanced skills in planning, risk management, sustainability, and project delivery to prepare you to lead complex construction and infrastructure projects globally.

12

Months Programme
Three 16-week trimesters

180

Credits
Eight 15-credit papers and a 60-credit applied project

6.5

Academic IELTS Requirement
No band lower than 6.0 or any other equivalent in a test recognised by NZQA

Programme Overview

The Master of Management (Construction Project Management) develops advanced expertise in managing construction and infrastructure projects within complex project environments. Building on prior study in business, construction, engineering, or related disciplines, the programme integrates leadership and management principles with specialised construction project management capabilities.

Students learn to apply advanced project planning, cost control, procurement, and risk management frameworks to construction and infrastructure delivery. The programme emphasises sustainability, regulatory compliance, and health and safety practices within the built environment sector.

Through applied research and industry-relevant frameworks, students gain the skills to manage project lifecycles, coordinate multidisciplinary teams, and deliver projects on time and within budget. Graduates are prepared to lead construction and infrastructure projects in Aotearoa New Zealand, and internationally.

Entry Requirements

- An original bachelor's degree or Graduate Diploma in a business-related subject from a recognised institution, including full transcripts,
- or evidence of acquiring the relevant skills and knowledge through appropriate work or professional experience in business studies or a related area.
- Undergraduate degree in a different discipline with relevant skills and knowledge through professional experience.
- For International students, Academic IELTS with a minimum score of 6.5 overall (with no band score lower than 6.0 and gained within the past two years in one examination), or any other equivalent in a test recognised by NZQA.
- A personal statement explaining why you want to study the programme is strongly recommended.

Employment Outcomes

- Construction Project Manager
- Site Manager
- Project Engineer
- Quantity Surveyor
- Construction Planner / Scheduler
- Contracts Manager
- Procurement Manager (Construction)
- Infrastructure Project Manager
- Project Controls Specialist
- Risk and Compliance Manager
- Construction Consultant

Graduate Outcomes

- Apply advanced management and construction project management theories to complex construction and infrastructure environments.
- Critically evaluate and apply project planning, risk management, and sustainability frameworks in construction project delivery.
- Analyse and communicate project data, cost estimates, schedules, and risk assessments to support project performance and decision-making.
- Coordinate multidisciplinary teams and stakeholders while ensuring compliance with regulatory, health and safety, and sustainability requirements.

MASTER OF MANAGEMENT

WITH SPECIALISATION IN

PROJECT MANAGEMENT

MM-PM – LEVEL 9

Become a leader in project delivery. The Master of Management (Project Management) develops advanced skills in planning, governance, risk management, and leadership to help you successfully manage complex projects and deliver strategic outcomes in organisations worldwide.

12

Months Programme
Three 16-week trimesters

180

Credits
Eight 15-credit papers and a 60-credit applied project

6.5

Academic IELTS Requirement
No band lower than 6.0 or any other equivalent in a test recognised by NZQA

Programme Overview

The Master of Management (Project Management) prepares graduates to successfully lead and deliver complex projects in fast-changing organisational environments. Building on prior undergraduate study in business or related disciplines, the programme combines core leadership and management principles with advanced project management methodologies and governance frameworks.

Students develop expertise in project planning, resource management, risk assessment, stakeholder engagement, and performance evaluation across the full project lifecycle. The programme emphasises strategic thinking, effective communication, and adaptive leadership to ensure successful project outcomes.

Through applied research and practical frameworks, students learn to manage complex programmes, coordinate diverse teams, and deliver projects that support organisational strategy and innovation. Graduates are equipped to lead projects across industries in Aotearoa New Zealand and globally.

Entry Requirements

- An original bachelor's degree or Graduate Diploma in a business-related subject from a recognised institution, including full transcripts,
- or evidence of acquiring the relevant skills and knowledge through appropriate work or professional experience in business studies or a related area.
- Undergraduate degree in a different discipline with relevant skills and knowledge through professional experience.
- For International students, Academic IELTS with a minimum score of 6.5 overall (with no band score lower than 6.0 and gained within the past two years in one examination), or any other equivalent in a test recognised by NZQA.

MASTER OF MANAGEMENT

WITH SPECIALISATION IN

SUPPLY CHAIN AND LOGISTICS MANAGEMENT

MM-SCLM – LEVEL 9

Lead the future of global supply chains. The Master of Management (Supply Chain and Logistics Management) develops advanced skills in logistics strategy, analytics, and supply chain optimisation to help you improve efficiency, resilience, and value creation in complex global markets.

12

Months Programme
Three 16-week trimesters

180

Credits
Eight 15-credit papers and a 60-credit applied project

6.5

Academic IELTS Requirement
No band lower than 6.0 or any other equivalent in a test recognised by NZQA

Programme Overview

Develop advanced expertise in managing complex supply chains within dynamic global environments. Building on prior study in business or related disciplines, the programme integrates core leadership and management principles with specialised capabilities in supply chain strategy, logistics systems, and operational optimisation.

Students learn to analyse, design, and improve integrated supply chain networks using advanced analytical tools, sustainability principles, and global best-practice frameworks. The programme explores key areas including demand planning, procurement, logistics coordination, and supply chain resilience.

Students learn to enhance efficiency, strengthen supply chain resilience, and create long-term organisational value in Aotearoa New Zealand and internationally.

Entry Requirements

- An original bachelor's degree or Graduate Diploma in a business-related subject from a recognised institution, including full transcripts,
- or evidence of acquiring the relevant skills and knowledge through appropriate work or professional experience in business studies or a related area.
- Undergraduate degree in a different discipline with relevant skills and knowledge through professional experience.
- For international students, Academic IELTS with a minimum score of 6.5 overall (with no band score lower than 6.0 and gained within the past two years in one examination), or any other equivalent in a test recognised by NZQA.
- A personal statement explaining why you want to study the programme is strongly recommended.

MASTER OF BUSINESS INFORMATICS

MBI – LEVEL 9

Master the art of business and IT with the MBI. Develop advanced skills in informatics, service computing, security, and management innovation to drive digital transformation and deliver real-world business value in a fast-evolving global landscape.

12 or 16

Months Programme
Three 16-week trimesters or
Four 16-week trimesters

180

Credits
Nine 15-credit papers and a 45-credit
applied project

6.5

Academic IELTS Requirement
No band lower than 6.0 or any other
equivalent in a test recognised by NZQA

Programme Overview

The Master of Business Informatics is a cutting-edge, cross-disciplinary programme that integrates business strategy with advanced IT and informatics skills. Students develop expertise in areas including service computing, security, distributed systems, and cloud computing, while applying management innovation to real-world business challenges.

The programme equips graduates with the ability to analyse and design IT-enabled business solutions, drive digital transformation, and deliver tangible value across organisations. Graduates emerge ready to bridge the gap between technology and management in a rapidly evolving industry.

Entry Requirements

- An original bachelor's degree or Graduate Diploma in informatics or business-related subject from a recognised institution, including full transcripts,
- or evidence of acquiring the relevant skills and knowledge through appropriate work or professional experience in business studies or a related area.
- For international students, academic IELTS with a minimum score of 6.5 overall (with no band score lower than 6.0 and gained within the past 2 years within one examination), or any other equivalent in a test recognised by NZQA.
- A personal statement explaining why you want to study the programme is strongly recommended.

Papers

LEVEL 8		
8102	Enterprise Systems and Business Analysis	15
8173	Innovation and Design Thinking	15
8273	Enterprise Innovation	15

8260	Business Transformation	15
8281	Business Professionalism	15
8542	Research Methods	15
LEVEL 9		
9536	Applied Project	45

Graduate Outcomes

- Analyse, design, and implement IT-enabled business solutions.
- Apply informatics, service computing, and security principles to solve complex business challenges.
- Communicate insights and strategies to enhance organisational performance.
- Lead digital transformation initiatives in diverse organisational contexts.

Employment Outcomes

- Business Analyst
- Process and Service Manager
- Digital Transformation Consultant
- IT Security Specialist
- IT Entrepreneur
- Innovation Consultant
- Project Manager
- Information Systems Manager
- Cybersecurity and IT Governance Specialist

MASTER OF BUSINESS INFORMATICS BY THESIS

MBI-T – LEVEL 9

A forefront business degree with a strong emphasis on research in Business Informatics prepares graduates to add value to both enterprises and research-led organisations. The MBI by Thesis programme may grant international students full-time work rights.

16

Months Programme

Four 16-week trimesters, one trimester of F2F tuition on campus and three trimesters of supervised research work in preparation for completing the thesis

180

Credits

Four 15-credit papers, one 30-credit research proposal, and a 90-credit thesis

6.5

Academic IELTS Requirement

No band lower than 6.0 or any other equivalent in a test recognised by NZQA

Programme Overview

The Master of Business Informatics by Thesis provides an in-depth, research-focused pathway for students seeking to advance knowledge at the intersection of business and IT. Students develop high-level skills in informatics, service computing, security, and management innovation while conducting applied research in emerging business and technology challenges.

The programme fosters the ability to critically analyse complex IT-business problems, propose innovative solutions, and generate new knowledge that contributes to organisational practice and digital transformation. Graduates are well-prepared for strategic roles or doctoral study.

Entry Requirements

- An original bachelor's degree or Graduate Diploma in informatics or business-related subject from a recognised institution, including full transcripts,
- or evidence of acquiring the relevant skills and knowledge through appropriate work or professional experience in business studies or a related area.
- For international students, academic IELTS with a minimum score of 6.5 overall (with no band score lower than 6.0 and gained within the past 2 years within one examination), or any other equivalent in a test recognized by NZQA.
- A personal statement explaining why you want to study the programme is strongly recommended.

Graduate Outcomes

- Conduct applied research at the intersection of business and IT.
- Analyse complex informatics and business challenges to develop innovative solutions.
- Communicate research insights and recommendations to support organisational decision-making.
- Contribute to knowledge and practice in business informatics and digital transformation.

- Research Analyst / Applied Informatics Researcher
- IT Strategy Consultant
- Digital Transformation Manager
- Business Systems Research Specialist
- Enterprise IT Solutions Designer
- Data Analytics and Decision Support Consultant
- Technology Innovation Advisor

POSTGRADUATE DIPLOMA IN BUSINESS INFORMATICS

PGDBI – LEVEL 8

Explore a unique combination of Business, Information Systems, and Information Technology. Gain advanced expertise in how businesses operate and learn to leverage technology for innovation and growth.

12

Months Programme
Three 16-week trimesters

120

Credits
Eight 15-credit level 8 papers

6.5

Academic IELTS Requirement
No band lower than 6.0 or any other equivalent in a test recognised by NZQA

Programme Overview

This unique programme brings together business and IT services in both a New Zealand and global context. The course is designed to create a highly relevant blend of advanced Business Management curriculum.

The PGDBI is designed for graduates with a Bachelor's degree, postgraduate or graduate diploma in a business-related or IT/computing subject from a recognised institution.

It is suited for those seeking to:

- Bridge the gap between a first degree and a career in business informatics that requires further qualifications skills; and
- Build a firm foundation for further advanced level study towards a Master's qualification in a similar discipline.

Papers

LEVEL 8		
8102	Enterprise Systems and Business Analysis	15
8173	Innovation and Design Thinking	15
8273	Enterprise Innovation	15
8151	Information Security Management	15
8150	IT Service Management and Strategy	15
8203	Project Management	15
8260	Business Transformation	15
8281	Business Professionalism	15

Entry Requirements

- Bachelor's degree in informatics or a business-related field from a recognised institution or evidence of relevant skills and knowledge from work experience.
- For international students, Academic IELTS with a minimum score of 6.5 overall (with no band score lower than 6.0 and gained within the past 2 years within one examination), or any other equivalent in a test recognized by NZQA.
- A personal statement explaining why you want to study the programme is strongly recommended.

Graduate Outcomes

The PGDBI may provide pathways for further academic study at a Master's level. Graduates may be required to pursue additional study and/or research for provisional or direct entry into a university Master's/Doctoral programme.

Employment Outcomes

- ICT Consultant
- Information Analyst
- ICT Project Manager
- Informatics Specialist
- Information Manager
- Information Architect
- Business Solutions Analyst

POSTGRADUATE DIPLOMA IN BUSINESS

PGDB – LEVEL 8

Advance your career with the Postgraduate Diploma in Business. Develop professional expertise in leadership, entrepreneurship, and strategic decision-making while gaining the analytical and problem-solving skills needed to succeed in today's fast-changing business environment.

12

Months Programme

Three 16-week trimesters

120

Credits

Four level 8 papers and four level 9 papers, all 15 credits

6.5

Academic IELTS Requirement

No band lower than 6.0 or any other equivalent in a test recognised by NZQA

Programme Overview

The Postgraduate Diploma in Business provides advanced knowledge and professional capability across key business disciplines. Designed for graduates seeking to strengthen their expertise or advance their careers, the programme develops critical skills in leadership, entrepreneurship, project management, and strategic decision-making. Students engage with contemporary business theories and apply them to real organisational challenges, developing the ability to analyse complex issues and propose effective solutions. Through rigorous academic study and practical frameworks, the programme equips graduates with the analytical, strategic, and leadership skills required to operate successfully in dynamic business environments. Graduates are prepared to contribute to organisational performance, pursue specialised professional roles, or progress to further postgraduate study.

Entry Requirements

- Bachelor's degree in a business-related field from a recognised institution or evidence of relevant skills and knowledge from work experience.
- For international students, academic IELTS with a minimum score of 6.5 overall (with no band score lower than 6.0 and gained within the past 2 years within one examination), or any other equivalent in a test recognized by NZQA.
- A personal statement explaining why you want to study the programme is strongly recommended.

Papers

- Business Development Executive
- Marketing or Sales Manager
- Entrepreneur / Start-up Founder
- Administrative or Corporate Manager
- Team Leader / Department Supervisor

GRADUATE DIPLOMA IN TEACHING (EARLY CHILDHOOD EDUCATION)

GDT-ECE – LEVEL 7

The focus of the programme is creating teachers who are able to teach children from 0 to 6 years and providing maturaunga/professional knowledge, whakapono/attitudes, values and beliefs, pukenga/skills and knowledge to become proficient educators and leaders in Aotearoa New Zealand.

12

Months Course

Three 16-week trimesters

135

Credits

Nine 15-credit level 7 papers

7.0

Academic IELTS Requirement

7.0 across all bands or a NZQA / NZ Teaching Council approved equivalent

Programme Overview

The Graduate Diploma at level 7 is designed to prepare learners to start their careers as early childhood educators. It can also be a bridging qualification to postgraduate study in ECE teaching or disciplines related to a particular focus, such as children with special needs, Māoritikanga or Pasifika knowledge in ECE. The Graduate Diploma allows graduates to continue with further study to a Master of Education (ECE) degree delivered in a range of NZ and international tertiary institutions and universities.

Entry Requirements

- Completed a Bachelor's degree at Level 7 on the NZQF or a recognised equivalent.
- Academic IELTS 7.0 across all bands, or an NZQA/ NZ Teaching Council-approved equivalent.
- Meeting the UE (University Entrance) level literacy and numeracy requirement.
- Meeting New Zealand Police Vetting requirements by the Vulnerable Children's Act 2014.
- Successful selection interview to determine values, disposition and fitness to teach. Before the interview, candidates must arrange for two referees to send confidential references directly to ICL.

Course Information

Students in the Graduate Diploma will complete 9 papers, all of which are at level 7, delivered at a maximum of three papers per trimester.

The course involves both theory and practice of 48 weeks (18 weeks in the classroom and online, 23 weeks in the classroom and concurrent practicum, and 7 weeks block practicum).

Graduate Outcomes

The programme meets the standards as defined by NZQA and the NZ Teaching Council. Graduates will be eligible to gain teacher registration in Aotearoa New Zealand.

Employment Outcomes

Most graduates find employment in a range of positions as educators and leaders in the early childhood sector.

Papers

LEVEL 7		
7301	The Holistic Curriculum	15
7302	Te Ao Māori	15
7303	Teaching as Inquiry	15
7304	Professional Practise Rapunga: Conceptualising Professional Practise in ECE	15
7305	ECE: Histories, Philosophies and Theories	15
7306	Human Development: Māori, Pacific and Global Perspectives	15
7307	The Professional Teacher	15
7308	Infant and Toddler Pedagogies	15
7309	Professional Practice Toa: Conceptualising Professional Growth in ECE	15

The Graduate Diploma is aligned with the values set out by the NZ National Education Priorities. The depiction of the "Nouka" a type of dragon boat, shows elements and values that guide our curriculum. We aim to guide our learners to reach their full potential as future educators and leaders in early childhood education.

GRADUATE DIPLOMA IN BUSINESS

GDB – LEVEL 7

Acquire advanced expertise in business professional practices and enhance your theoretical and practical knowledge to apply it effectively in any business context. This programme will equip you with the skills and knowledge necessary to succeed in today's competitive business landscape.

12

Months Programme
Three 16-week trimester

120

Credits
5 core compulsory papers and
3 specialised papers

6.0

Academic IELTS Requirement
No band lower than 5.5 or any other
equivalent in a test recognised by NZQA

Programme Overview

Students will complete five core compulsory courses that make up the core of the qualification. The remaining three courses will focus on a selected specialist area:

- International Business Innovation
- International Hospitality Management
- International Tourism Management

Core Papers

LEVEL 6		
6280	International Business	15
6220	Introduction to International Economics	15
6281	Business Ethics	15

LEVEL 7		
7240	International Marketing and Digital Media	15
7280	Inter-Cultural Relations	15

Entry Requirements

- Bachelor's degree from a recognised institution or evidence of relevant skills and knowledge from work experience.
- For international students, academic IELTS with a minimum score of 6.0 overall (with no band score lower than 5.5 and gained within the past 2 years within one examination), or any other equivalent in a test recognised by NZQA.
- A personal statement explaining why you want to study the programme is strongly recommended.

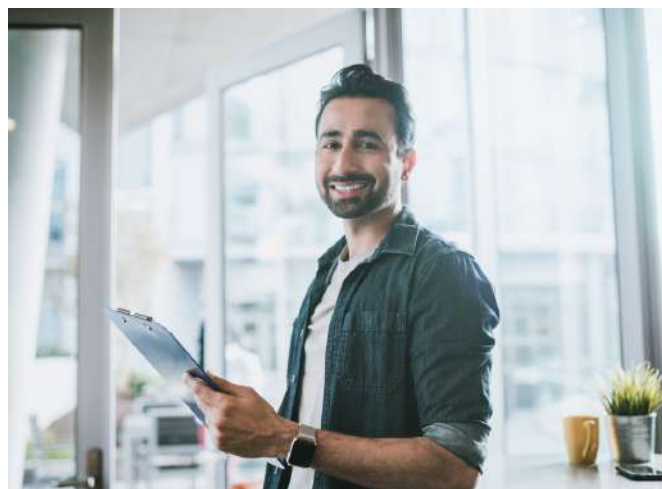

WORK PLACEMENT

300 hours of practicum work (Hospitality and Tourism only)

Graduate Outcomes

Graduates of this programme with its three pathways will have an advanced level of knowledge and skills in international business, tourism management or hospitality management. These attributes equip graduates for a wide variety of business roles in an international environment. They are ready to pursue a career in the global economy with an awareness of international trade concepts, cultural issues, ethics and the internationalisation of innovation; or of international hospitality or tourism management concepts.

Choose between International Business Innovation, International Hospitality Management or International Tourism Management.

GRADUATE DIPLOMA IN BUSINESS - INTERNATIONAL BUSINESS INNOVATION

The International Business Innovation pathway aims to move beyond traditional entrepreneurship or new venture approaches to innovation and examine innovative techniques and concepts within the international corporate environment. The innovation component of the course in particular requires an ability to think beyond the status quo, to strategically develop, critically evaluate and implement new ideas.

Specialised Papers

LEVEL 7		
7271	Open Innovation	15
7272	Applied Innovation	15
7273	Corporate Innovation: Strategy to Implementation	15

Employment Outcomes

- Strategic Planning Manager
- Business Development Manager
- Key Account Manager
- Infrastructure Advisory Consultant

GRADUATE DIPLOMA IN BUSINESS - INTERNATIONAL HOSPITALITY MANAGEMENT

The International Hospitality Management pathway aims to enable students to gain a deeper understanding of the hospitality industry and its multiple sectors and develop a depth of knowledge on the management issues that occur within the industry. The Industry Practicum and Research Project provides students with a hands-on immersion in the hospitality industry, allowing them to apply their learning, test the relevance of academic theories and reflect critically on the relationship between their academic study and industry practice.

Specialised Papers

LEVEL 7		
7281	Mindful Management	15
7301	International Hospitality Management in Context	15
7501	Industry Practicum and Research Projects	15

Employment Outcomes

- A variety of roles in Hospitality
- Food and Beverage Manager
- Restaurant Manager
- Events Operations Manager

GRADUATE DIPLOMA IN BUSINESS - INTERNATIONAL TOURISM MANAGEMENT

The International Tourism Management pathway aims to enable students to gain a deeper understanding of the tourism industry and its array of sectors. Students will develop a depth of knowledge of the management issues that occur within the industry. The Industry Practicum and Research Project provides students with a hands-on immersion in the tourism industry, allowing them to practically apply their learning, test the relevance of academic theories and reflect critically on the relationship between their academic study and industry practice.

Specialised Papers

LEVEL 7		
7281	Mindful Management	15
7401	International Tourism Management in Context	15
7501	Industry Practicum and Research Projects	15

Employment Outcomes

- Tourism Manager
- Client Experience Manager
- Experience and Brand Manager
- Community Development Manager

BACHELOR OF BUSINESS INFORMATION SYSTEMS

BBIS – LEVEL 7

The Bachelor of Business Information Systems develops work-ready graduates with combined business and information systems expertise, focusing on technical capability, ethical data use, and critical thinking for organisational success in New Zealand and globally.

24

Months Programme
Six 16-week trimester

360

Credits
Info. Systems 105 credits, Business 120 credits, ICT 90 credits and Research & Application 45 credits

6.0

Academic IELTS Requirement
No band lower than 5.5 or any other equivalent in a test recognised by NZQA

Programme Overview

The course spans the workload of three academic years condensed into 24 months. Students will explore both business and information systems papers, culminating in a hands-on project aligned with industry needs in the final term of study.

Entry Requirements

- A qualification that is recognised as the New Zealand University Entrance (UE) with minimum of 14 credits at NCEA Level 3 in three different approved subjects, 10 credits at NCEA Level 2 in English, and 10 credits at NCEA Level 1 in Mathematics, or
- An alternative secondary school qualification (Ad Eundem Statum) that is deemed equivalent to the UE.
- For international students, academic IELTS with a minimum score of 6.0 overall (with no band score lower than 5.5 and gained within the past 2 years within one examination), or any other equivalent in a test recognised by NZQA.

Graduate Outcomes

Graduates of the Bachelor of Business Information Systems will be able to apply business, information systems, and research knowledge to analyse and solve organisational problems in New Zealand and globally. They will demonstrate project management capability to design and implement technical and process solutions, evaluate and improve business systems, and support organisational efficiency. Graduates will also show professional competence through ethical practice, effective communication, collaboration, people management, and strong technical and problem-solving skills in a competitive global environment.

Employment Outcomes

- Database Administrator
- Information Systems Manager
- Business Analyst
- IT Project Manager
- IT Consultant
- Programmer and Designer
- Data Modeller
- Electronic Commerce Administrator
- Application Analyst
- Cybersecurity Analyst
- Systems developer
- Project Manager
- IT Technical Support

360

Credits
Healthcare 90 credits, Business 105 credits, ICT 120 credits and Research & Application 45 credits

6.0

Academic IELTS Requirement
No band lower than 5.5 or any other equivalent in a test recognised by NZQA

Programme Overview

The Bachelor of Business Information Systems (Healthcare) builds skills for roles that connect business, technology, and healthcare. It gives students a strong base in information systems and business, while also covering healthcare settings, health data practices, and digital health tools.

Entry Requirements

- A qualification that is recognised as the New Zealand University Entrance (UE) with minimum of 14 credits at NCEA Level 3 in three different approved subjects, 10 credits at NCEA Level 2 in English, and 10 credits at NCEA Level 1 in Mathematics, or
- An alternative secondary school qualification (Ad Eundem Statum) that is deemed equivalent to the UE.
- For international students, academic IELTS with a minimum score of 6.0 overall (with no band score lower than 5.5 and gained within the past 2 years within one examination), or any other equivalent in a test recognised by NZQA.

Graduate Outcomes

Graduates will use business knowledge, management thinking, and research skills to understand and solve challenges in healthcare organisations in Aotearoa New Zealand and beyond. They will show strength in planning and running projects, creating and improving processes, and helping teams work more smoothly. They will also use information systems and new technologies to support fresh ideas and ongoing improvement in healthcare settings.

Employment Outcomes

- Health Information Systems Analyst
- Clinical Data Analyst
- Medical Records Data Coordinator
- Health Informatics Specialist
- Healthcare Business Intelligence Analyst
- IT Support Specialist (Healthcare Systems)
- Digital Health Coordinator
- Health Information Manager (entry-level roles)
- Project Coordinator (Healthcare/IT Projects)
- Systems Analyst (Healthcare Sector)

NZCEL

NEW ZEALAND CERTIFICATE IN ENGLISH LANGUAGE LEVELS 4 & 5

Bridge International College was established in 2000. In its latest External Evaluation and Review (EER) in 2022, it achieved the highest rating of Category 1 under the previous EER system and is a proud member of English New Zealand.

If you are preparing for tertiary studies, you can study a New Zealand Certificate in English Language (NZCEL) offered by **Bridge International College**, an ICL Education Group member, located in the same building as ICL Graduate Business School.

Graduate Outcomes

- Graduates of this qualification will be able to:
- Understand the main ideas and supporting details of moderately complex oral academic texts.
- Participate effectively in sustained spoken academic discourse.
- Understand the main ideas and supporting details of moderately complex written academic texts.
- Write detailed, developed, moderately complex texts.

Entry Requirements Level 4

- Be at least 16 years of age.
- Produce evidence of proficiency in English equivalent to a Common European Framework of Reference (CEFR) B2 Low level. This may be demonstrated via a recognised English language testing system such as IELTS, Cambridge, TOEFL, achievement in the New Zealand Certificate of English Language (L3).
- Possess the appropriate student visa.

Outcomes

- Improve your writing of academic essays to include a well-structured introduction thesis statement and conclusion, and the development of ideas in main paragraphs to follow a line of reasoning.
- Instruct you on how to write an academic report which includes headings, general and main findings, and recommendations.
- Extend your knowledge of academic vocabulary and improve your ability to use appropriate words in context.
- Develop intensive reading and listening skills for deeper comprehension of academic texts.
- Enable you to participate in academic discussions by developing your speaking skills and the ability to present an argument.
- Encourage you to use critical thinking skills to analyse information and form your own opinions.
- Show you how to reference academic sources by analysing types of citations and the use of paraphrasing.
- Guide you towards resources and strategies for self-study to assist you in becoming a more independent learner.
- Assist you in developing strategies for taking a variety of academic exams.

Entry Requirements Level 5

- Be at least 16 years of age.
- Produce evidence of proficiency in English equivalent to a Common European Framework of Reference (CEFR) B2 Mid level. This may be demonstrated via a recognised English language testing system such as IELTS, Cambridge, TOEFL, and achievement in the New Zealand Certificate of English Language(L4).
- Possess the appropriate student visa.

INTERNAL TEST

Where a prospective student for the NZCEL Level 4 or Level 5 programmes cannot produce evidence of current English proficiency, Bridge will use its own **Internal English Proficiency Test (IEPT)** to assess and determine the student's entry level.

Founded in 1988, AEA is one of the oldest English language schools in New Zealand. In its latest External Evaluation and Review (EER) in 2022, it achieved the highest rating of Category 1 under the previous EER system. AEA is also a proud member of English New Zealand.

For over 36 years **Auckland English Academy** has been providing quality education, whether you want to learn English for academic pathways or just to enjoy better communication skills with the rest of the world. Our students come to us from all over the world to learn **Communication English** and prepare for IELTS and PTE examinations.

Communication English

This is a Full-Time (20 h/w) course that provides students with all English language skills including:

- **Speaking**
- **Listening**
- **Writing**
- **Reading**

Why study Communication English?

- Every student has an **ILP Individual Learning Plan** to help them achieve their goals.
- All English levels
 - **Beginner**
 - **Elementary**
 - **Pre-intermediate**
 - **Intermediate**
 - **Upper-Intermediate**
 - **Advanced**
- **Morning and Evening** timetables are available.
- Development of English language proficiency in all areas of communication.
- Receive a **progress report** every six weeks based on skills assessment to ensure continuous growth.

PTE Preparation

Pearson Test of English (PTE) is the first completely computer-based and machine-scoring English test with accurate, fast, objective scores, an alternative to IELTS, which suits many students' learning styles.

AEA offers a specialised **PTE** course designed to ensure success for students in a fully computer-based and machine-scoring test.

Morning and Afternoon timetables are available.

Available from **Pre-Intermediate** to **Advanced** level.

IELTS Preparation

AEA has one of NZ's best **IELTS Preparation** courses. The course is taught by experienced IELTS teachers who structure their lessons to ensure student success.

AEA has a proven winning formula for preparing students for exam success, with a widely respected track record. The course focuses on the skills and techniques relevant to achieving target scores in the examination.

Morning and Evening timetables are available.

Two levels available:

- **IELTS Foundation** (Pre-Intermediate)
- **IELTS Preparation** (Intermediate to Advanced)

Free Activities

- Group Excursions
- Employment Skills Workshops
- Singing, Conversation and Pronunciation Clubs
- Cultural Exchange & More!

ENTRY REQUIREMENTS

The indicated IELTS scores in the following chart are overall Academic IELTS scores. Please check each course page to ensure that you meet the minimum band score.

BUSINESS

ENROLMENT

Studying at ICL in New Zealand is an exciting journey that requires planning ahead. You can apply directly to ICL or through an ICL registered retailer. We recommend you submit your application at least three months before your course starts.

You may need the following items to apply:

- A copy of an English language test such as Academic IELTS, PTE, TOEFL, NZCEL or recognised equivalent. *Note that these results are valid for only two years from the exam date.
- Copies of academic documents and certified translations of all relevant documents that are not in English (transcripts as well as award certificates).
- Evidence of relevant work experience (including references).

You can easily apply online via the online application section on our website. Please complete the International Student ICL Application Form. Do not forget to make sure all sections are completed in full, and that you have indicated the programme and major of your choice.

If you have any problems with your online application or any other questions, please feel free to send an email to info@icl.ac.nz, and our dedicated staff will assist you throughout the process.

Pre-departure Checklist

- 1 Organise your visa. Visit www.immigration.govt.nz for more information regarding your visa application.
- 2 Make sure your passport is valid for your intended length of study in NZ.
- 3 Arrange accommodation before your arrival through ICL's accommodation service, or your retailer or someone you can trust (e.g. a family member) in Auckland.
- 4 Pack a document folder containing your Offer of Place Letter, academic transcripts from previous studies, identification documents, etc.
- 5 Organise to have at least NZD 300.00 cash available for your arrival in Auckland.
- 6 Have a medical, optical and dental check-up and organise any prescribed medicine required.
- 7 Write down the contact details of your country's embassy in New Zealand.
- 8 Write down the number of ICL's emergency contact number for international students +64 (0)21 780 793

ICL reserves the right to alter programmes, curricula and terms and conditions without notice, before or after student admission. At the time of publishing in April 2026, every effort was made to present the information accurately in this prospectus; however, ICL accepts no liability for any errors that may have occurred.

ICL Graduate Business School's most recent External Evaluation and Review (EER) outcome in 2022 achieved Category 1 under the previous EER system.
